Silverchops is a piano/bass jazz duo based in Pune, India, and has been performing actively since late 2006.

Our frontperson, Rose Eilert, is a veteran jazz pianist of Australian origin. Our music ranges from mainstream and post-bop jazz to funk and crossover influences. We are open to work collaboratively with other musicians and to perform or record across India.

Welcome to you.

Did you see the post of Andy Grosskopf?

He is coming to India in January and would like to play with other musicians.

I would like to get you together with him. He will be in Goa, so just around the corner... :laugh:

I suggest you give him a few lines on his post.

Cheers Tina
